

SPONSORSHIP KIT

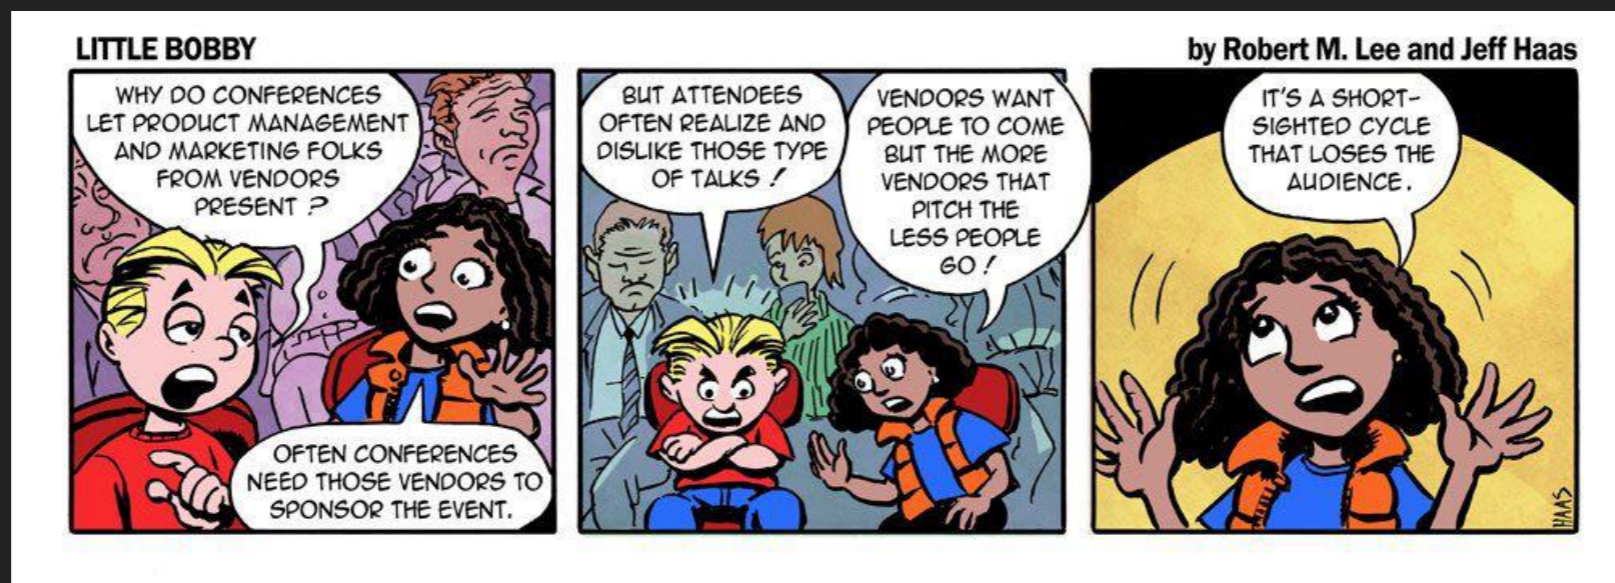

NANOSEC

CONFERENCE 2019

About Us

NanoSec is a newly created technical Information Security conference that focuses on all things security for Asia Pacific region, with a specific focus towards empowering & elevating Malaysia's InfoSec professionals and community. This initiative is run by a dedicated group of local IT Security professionals, with the help of volunteers from the community. NanoSec Conference event format are:

- ▶ Vendor & product neutral security conference platform (no sales pitch nor marketing-biased presentation).
- ▶ Highly hands-on technical trainings by reputable trainers from all over the world.
- ▶ Selection of speakers is based on their research papers' merits, not by who they are / who they work for. Each submissions will be vetted through and voted by our CFP Panel (consisting of veteran security professionals and advisors).
- ▶ Our goal is to elevate security awareness amongst Malaysians by bringing in the world's best security people from all over the world to Malaysia while maintaining an affordable price for Malaysians.

Event Details

Our second annual event consists of a 2-day hands-on technical training, followed by our main event of 1-day dual track security conference. Event details are as follows:

2-day Hands-On Technical Training

Venue: TBC, Kuala Lumpur

Dates: 7th & 8th October 2019

1-day Security Conference

Venue: TBC, Kuala Lumpur

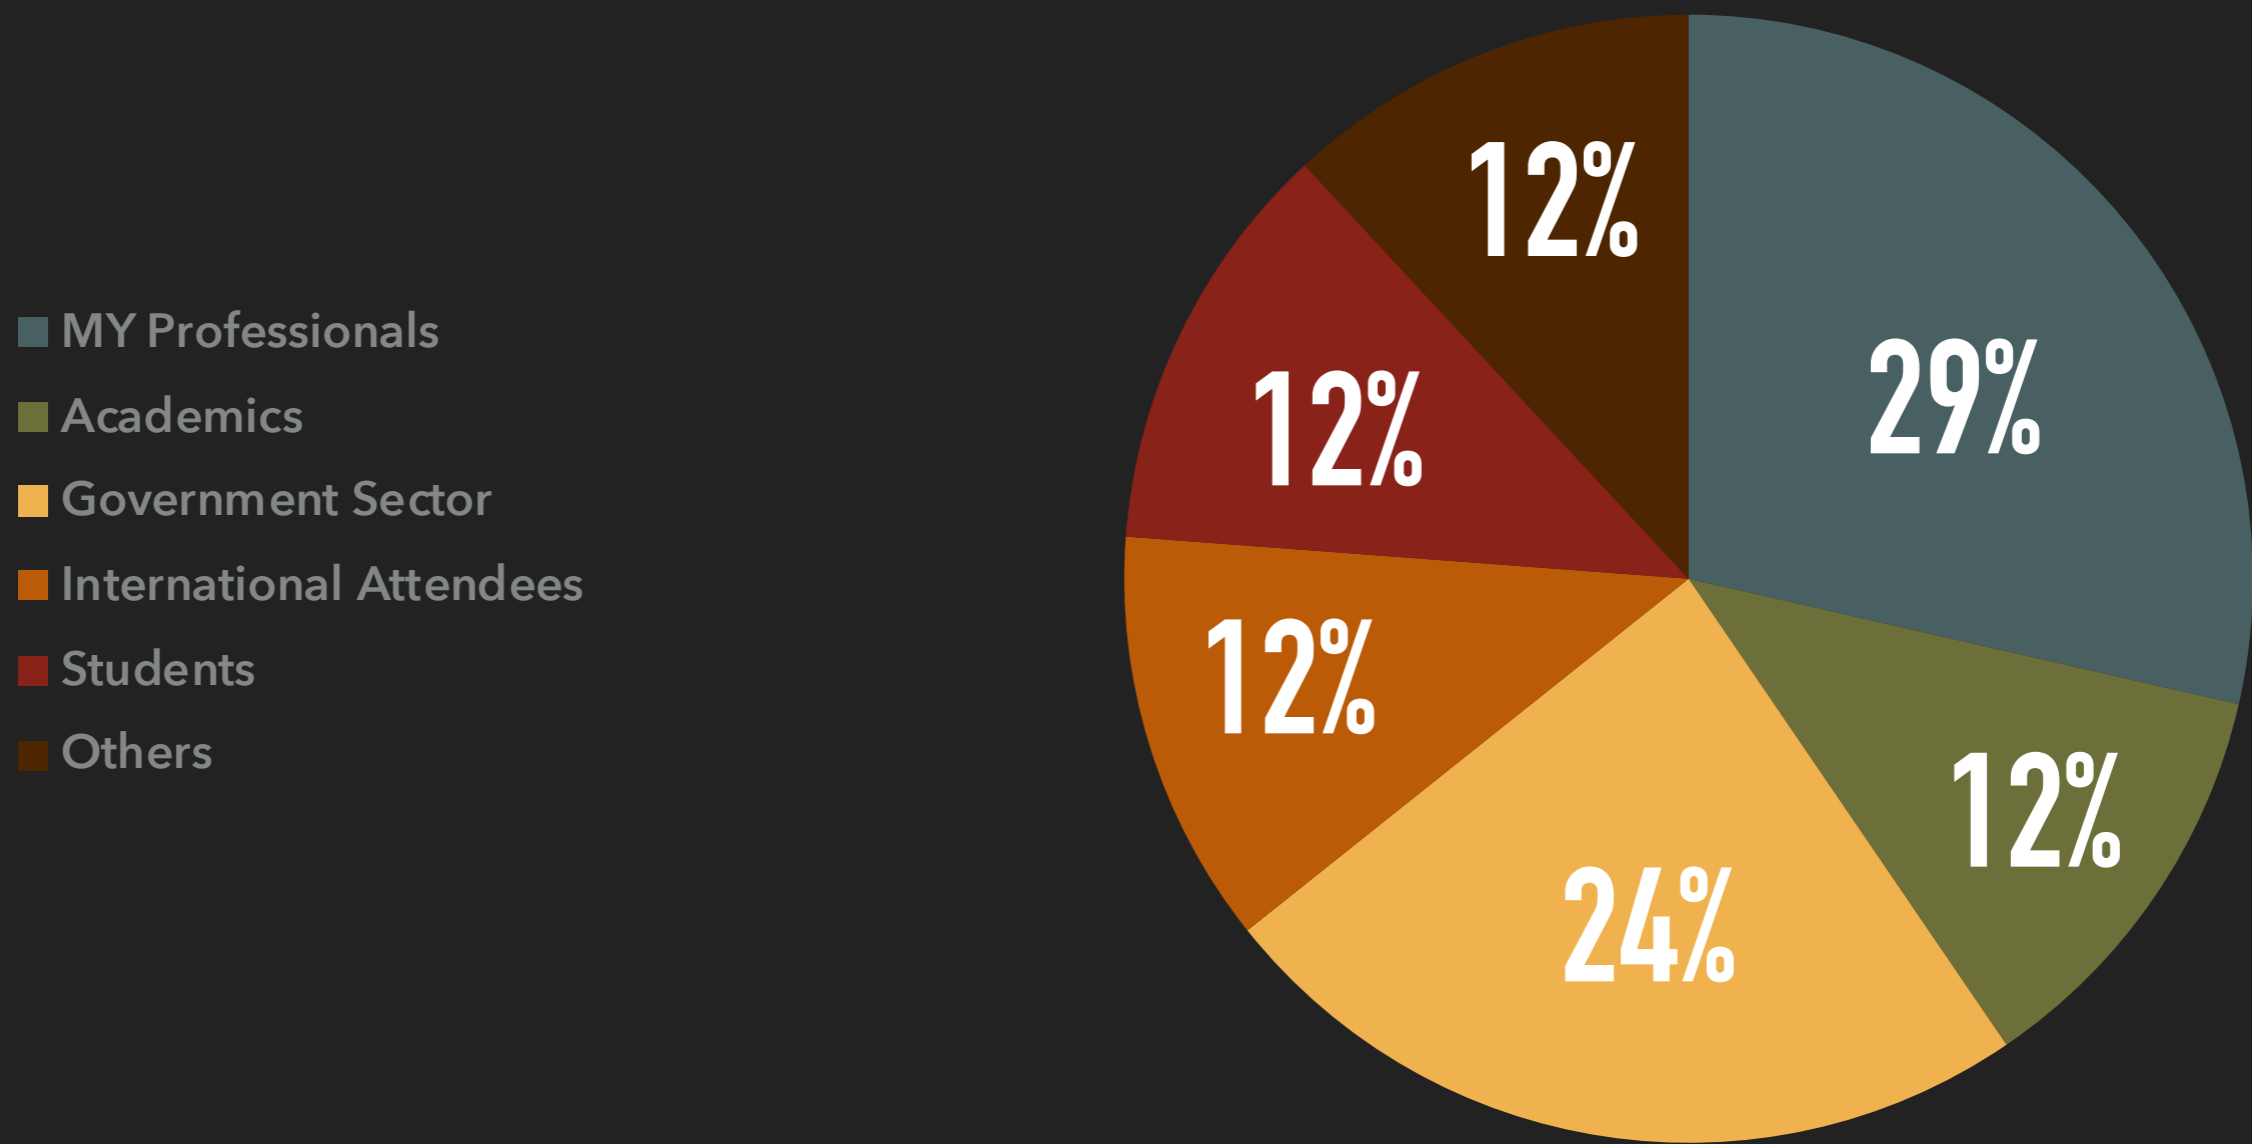

Date: 9th October 2019

Capture the Flag Competition

TBC

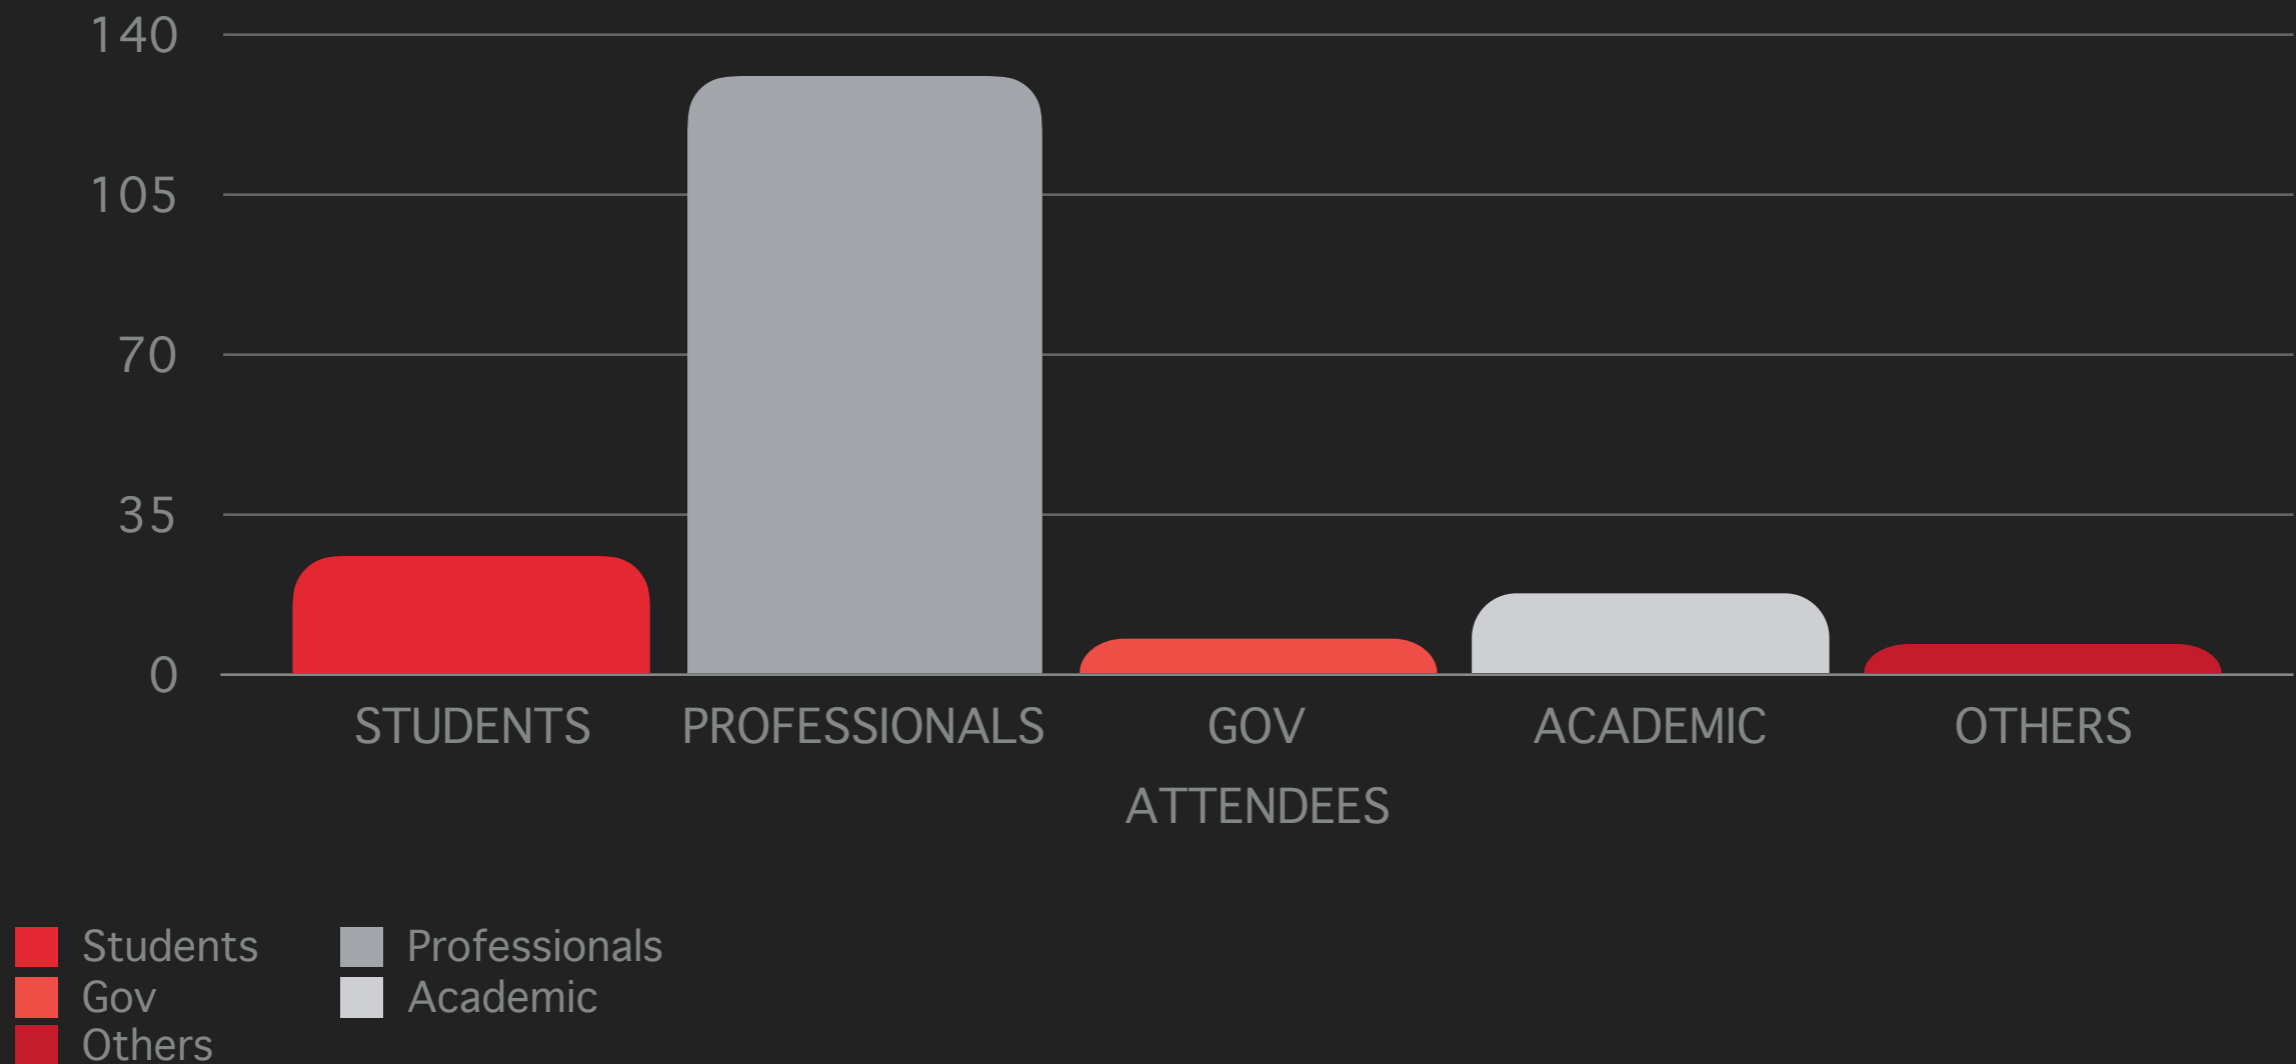

Target Audiences

Our goal is to get between 300-400 conference attendees & training students from Malaysia and ASIA region to attend our event. The crowd estimation breakdown is as follows:

Past Event - 2018

Our first inaugural 1-day, single track NanoSec Conference 2018 was a success with approximately 200 attendees ranging from government bodies, practising security professionals, as well as students. This was possible with the help of our amazing sponsors which helps make it possible to keep our entrance fee minimal.
